WEST POINT.

Special Dispatch to The N. Y. Tribune. WEST POINT, Monday, Aug. 27, 1886. The expected arrival of President Johnson at this post on Thursday morning has created considerable excite ment among the officers on duty here, the professors and the cadets, and the day is looked forward to with much impatience and interest, owing to the fact that the new Superintendent of the post, Brevet-Brig. Gen. Thomas G. Pitcher, is to assume command to morrow, Gen. Cullom retiring. The arrangements for the recoption have not been completed. It may be stated, however, that the arrangements will consist of a parade of the cadets, the officers of the post and the privates, and of the Preferences of the Academy. The young soldiers will be reviewed by the President, who will be received, by an escort to be appointed by Gen. Pitcher. No official announcement from Washington of the President's visit to this place has yet been received, and all that is known about it here is what has been learned from the newspapers. According to the par-ticulars of the proposed tour as published, the President will remain here only two hours, and the exercises will necessarily have to be hurried through. The Diensters at Narrowsburg, on the Eric Railroad.

We published yesterday the particulars of a collision between trains on the Eric Railroad at Narrowsburg, on the Delaware Division, the explosion on an oil train and subsequent confingration and loss of life. A dispatch received yesterday by the President from the Superintendent of the sequent configration and loss of life. A dispatch received yeaterday by the President from the Superintendent of the road, confirms, in the main, the account stready published. The accident, according to this dispatch, occurred at about 1 o clock on Sunday morning. An extra train, laden with oil, was broken apart in the out west of Narrowsburg, leaving the caboose and ten or twelve cars of oil standing on the track. Signals were not sent back a proper distance, and before the train could be again coupled a second extra train came up and a slight collision ensued. This collision was so slight that it simply caused the breaking of two or three draw-beads in each train. An oil-tank on the delayed train immediately exploded, throwing fire and oil with fearful force in all directions. The entire train was soon on fire. The flames then communicated with several buildings in the vicinity, the particulars of the burning of which we have already recorded, as well as the death of two children by the said disaster.

The following property was destroyed. Ten cars of oil-these cars laded with dry bides; a dwelling house owned by Mr. Jos. Beylins, merchant; the dwelling-house owned by Mr. Jos. Beylins, merchant; the dwelling-house owned of a Mr. Hendricks; a wagon shop, the upper part of which was used as a dwelling; and a carpenter's shop, trackmen's tool-house, and alouit 20,000 deet of lumber owned by the railroad company. It is now thought that the loss will fall short of the first estimate, viz. \$80,000.

The conductor of the oil train, who was badly burned, was clearly censurable for not properly signaling the train following history.

The Health of the City.

The total mortality of the City of New-York for the week ending last Saturday was 714—a decrease of 34 as compared with the previous week. The total number of deaths from cholers, during the same period, was 114, of which 68 took place in the public institutions, and 46 in the private houses of the city. The decrease, as compared with the previous week, it 31. The public health seems, therefore, to be slowly resuming its normal condition. That cholers will find victims in every week, more or less, throughout the season, we have no doubt; that it will not as sume the form of an epidemic, in any part of the city, again, during the present year, we think may be safely predicted. Suddea meteorological changes, which may be expected during the coming months, will, however, have the effect, and the passage of every day hereafter will make it of more and more importance to be carefully protected against the weather. This is always a necessity, but more particularly now. The cholera poison is abroad, and may manifest itselfatally at any moment. Preventive measures must not cease at any time, for it is far essier to contract the disease than to cure it. week ending last Saturday was 714-a decrease of 34 as com-

at any time, for it is far ceaser to decide the current.

GRAND MATCH AT NEWARK—ATHLETIC VS. SUBBLANS.

An immense assemblage of spectators were gathered on the Eurska grounds at Newark yesterday, on the occasion of the grand match with the celebrated Athletic Club of Philadelphia, the trains from New York running, crowded, each hour. The mimost interest was taken in the match, owing to the recent success of the Eurskas in their game with the Athletic Eurskas, and apparently it was likely to be a claver so did the Eurskas and apparently it was likely to be a claver so did the Eurskas and apparently it was likely to be a claver so did the Eurskas went to the bat first, and were handsomely put out on a blank score, and the Athletics would have shared the same fate had all the chances offered for oxiches been taken, but they were not, and the result was that no less than 16 runs were added to the Athletic score, thus wetting the question of the victory almost at the very start. It was not until the atth innings that the Eurskas were allowed to score a single run, obborn being the first to break the less. In the last unplug they began to bat well, scoring 5 runs, but their total in the game was but 6, the Athletics scoring no less than 8. ESCAPING FROM THE TOMBS IN DAYLIGHT .- Chas. Wells, a confidence man, whose pleasing manner and fine story of fortunes to be made for all seekers in the land of the El Dorado, won the imagination and at the same time the wallet of Reuben Darnly, an account of which has been rewallet of Reuben Darnly, an account of which has been reported, is now accredited with a later and more daring dodge. Having been committed for trial by Justice Ledwith for his swindling operations, he was yesterday morning taken from the Jefferson Market Prison and sect in the "Black Maria"—sort of traveling prison on wheels—to the Tombs to be locked up. He safely arrived there, and a Fentonian visitor who was provided with an entrance ticket, which he held in his hand, met him on the corridor inside the Bridewell, and inquired for a friend who was in one of the cells. Wells being asked, took the ticket with cool indifference out of the visitor's hand, and said he would find the man wanted; with that he walked away, and passed out of the prison gates. This is considered to be the most bold and export escape ever made from the Tombs, and it is sincerely regretted, he being an old and practiced confidence sharp, and deserving imprisonment. Sergeant Carland of the Jefferson Market Court, with the necessary promptitude sent a telegraphic message to Officer Irving, who last arrested Wells, informing him of his escape, and requesting the officer to find the prisoner again.

THE EXTRA TRIBUNE for the POLITICAL CAMPAIGN.

A political struggle, rarely surpassed in importance or intensicy, has been precepitated on the country by the treachery of Andiew Johnson and some of his official or personal adherents to the great and patriotic party by which they were intrusted with power.

The aim of this treachery is to put the steadfast leyalists of the South under the feet of the "whipped but not subdued" Rebels, and to enable the latter to glot their wengenane on the former, whom they hate and ourse as responsible for the most unexpected overthrow of their dailing "Confideracy."

The recent wholesale massacres at Mamphis and New-Oricons were but conspicuous manifestations of the spirit now rampant in the South, whereof the pro-Rebel friumph in Kentucky is a more recent example. The soldiers of Lee, Beauregard, Johnston and Hood are now the dominant power from the Potomac to the Rio Grande; they elect each other to office is preference even to stay-at-home Rabels; they have supplanted nearly all others as policemen of Southern cities; they are organized and officered as State militia; and they ruthlessly creats every demonstration of loyal Whites or loval Blacks in assertion of the EQUAL RIGHTS of AMERICAN FREEMEN. The school-houses of the Blacks are burned and their White teachers subjected to violence and outrage by unchanged Rebels, who relieve the work of murder and arson by cheers for Andy Johnson and executions of Congress.
